**DJ 183** | Designed and implemented a fully operational website featuring a musical quiz game
- Personal* **Three and a Half Asian Men Podcast Website** | [tinyurl.com/3hampodcast](https://tinyurl.com/3hampodcast)
- Deployed a front-end site using GitHub pages for my personal podcast to learn the basics of React
- Call of Duty League 2020 Stats**
- Constructed a clean and filterable table of stats for the Activision Call of Duty League using Google Sheets API and Next.js framework

## EXPERIENCE

- Nov 2019 - Present* **University of Michigan Information and Technology Services** | Ann Arbor, MI  
Tech Consultant
- Provided technical support to customers, troubleshooting any hardware and software problems
  - Performed maintenance to network devices and other technical equipment deployed at the university facilities
- Summer 2019* **Richard Fleischman and Associates** | New York, NY  
Client Development Intern
- Led the effort in organizing the firm's client ConnectWise database, prioritizing the Microsoft Windows 10 operating system upgrade and migration projects
  - Engaged in numerous conference calls and meetings to identify and isolate technical issues and limitations regarding the application and migration of the Windows 10 OS upgrades
  - Collaborated with the client development team in strategic planning to set short term and long term business goals
- July 2017 - March 2018* **Basketball Planet** | Ridgefield, NJ  
Intern
- Managed a Jimdo website documenting and tracking statistics and multimedia content for private basketball league for player and executive use
  - Mediated communications between my executive and semi-professional basketball players over email and over social media outlets such as LinkedIn

## SKILLS

- Proficient in C++, GitHub
- Familiarity with C, Python, React, HTML, CSS
